

## Interested in discovering more about your family history?

**Then our project may be for you...**

Working alongside **Historic Swale** and using the latest digital tech, we will explore the diverse stories of who we are and discover where our ancestors came from and what they brought to Swale?

**We are looking for volunteers aged 11-18** (up to 25) to bring an exciting **exhibition of 100 objects** to museums, celebrating our family heritage and rich cultural history across the last 250 years.

**Working with local museums, heritage sites, artists, filmmakers and digital creatives, you'll take part in this exciting heritage project, creating immersive Virtual Reality experiences, pop up events and walk in museum experiences for young and old alike to become involved in.**

Find out about Swale's famous residents, unsung heroes and heroines and discover your own family history and heritage too.

**All our activities are FREE**, join in trips and visits, and gain volunteer experience and accredited training across a range of arts, culture and heritage organisations. You can work towards an Arts Award Bronze qualification too!

**We are looking for older participants** to share your wisdom, experience and stories. Help us shape and create this inter-generational project.

**No experience necessary** - just curiosity, a love of where you live, an interest in history and a passion to make a difference to our community.
